Commitment Letter: Leadership in Risk Management Strategy for Infrastructure Development

To Whom It May Concern,

The Ministry of Public Works, Reconstruction and Housing (MoPWRH) of the Federal Republic of Somalia hereby affirms its full commitment to lead and coordinate the development and implementation of a comprehensive **Risk Management Strategy for Infrastructure Development** in Somalia.

Recognizing the importance of resilient and sustainable infrastructure for national development, economic recovery, and public safety, the Ministry acknowledges that proactive risk management is essential. This includes identifying, assessing, and mitigating risks related to governance, finance, environment, security, climate change, and operational capacities at every stage of infrastructure planning and delivery.

In alignment with the National Transformation Plan and the broader goals of state-building and resilience, the Ministry will:

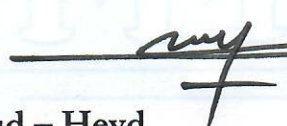

1. **Lead the execution** of Risk Management Strategy for Infrastructure Development.
2. **Establish a cross-sectoral coordination mechanism** involving key stakeholders including government institutions, development partners, private sector actors, and civil society.
3. **Develop institutional capacities** within the Ministry and across implementing agencies to systematically identify and manage infrastructure-related risks.
4. **Ensure integration of risk management** into policy frameworks, project planning, procurement, design, construction, and maintenance processes.
5. **Promote transparency and accountability** through regular monitoring, evaluation, and public reporting on risk mitigation efforts.

6. **Engage development partners** and international institutions to align technical and financial support with national risk management priorities.

This commitment reflects the Ministry's dedication to safeguarding infrastructure investments, ensuring value for money, and enhancing the resilience of Somali communities to future shocks and stresses.

We look forward to working closely with all stakeholders to achieve these objectives and build a safer, more resilient Somalia.

Sincerely,

H.E Said Mohamed Mohamoud – Heyd
Acting Minister and State minister of the Ministry
